Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I-XXIX. Claims 8-10, 21-23, 34-36, 47-49, 58-60 and 68-70, drawn to an isolated nucleic acid comprising SEQ ID NO: 3 through SEQ ID NO: 29, classified in class 536, subclass 23.1.

Claims 1, 15, 28, 40, 50 and 61 link(s) inventions of Groups I-XXIX. The restriction requirement among the linked inventions is subject to the nonallowance of the linking claim(s), claims 1, 15, 28, 40, 50 and 61. Upon the allowance of the linking claim(s), the restriction requirement as to the linked inventions shall be withdrawn and any claim(s) depending from or otherwise including all the limitations of the allowable linking claim(s) will be entitled to examination in the instant application. Applicant(s) are advised that if any such claim(s) depending from or including all the limitations of the allowable linking claim(s) is/are presented in a continuation or divisional application, the claims of the continuation or divisional application may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Art Unit: 1636

Groups I-XXIX are comprised of multiple inventions which are drawn to different and independent sequences which do not render each other obvious and thus are patentably distinct. If any of Groups I-XXIX are elected, applicants must elect a single invention which is drawn to one specific sequence to which the claims will be restricted.

Note: This restriction to examination of a single sequence is due to the now, very high and undue burden for examining more than one sequence which is caused by the continued exponential increase of size of the sequence databases to be searched for each sequence, resulting in a corresponding increase in computer search time and examiner time for reviewing the computer search results. Therefore, the limited resources of the office no longer permit examination of more than one sequence in an application.

Claims 11-14, 25-27, 37-39 and 71-74 are dependent claims which will be examined, subject to the election of the independent claims from which they depend, in any Group elected.

Because these inventions are independent for the reasons given above and the sequence database search required for each of Groups I-XXIX is not required for each of the other Groups I-XXIX, restriction for examination purposes as indicated is proper.

A telephone call was made to Frank DiGiglio on May 16, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William Sandals whose telephone number is (703) 305-1982. The examiner can normally be reached on 9:30 to 6:00.
